

Building a Future for the Lancaster-Johnson Family

“We have always desired a home of our own where the community is safe.”

Sonni and Karen with their three children Traivel, Ayanna and Amir live in a small two-bedroom townhome in an unsafe neighborhood. They are in dire need of a larger house to achieve safety and stability for their family.

Recently they were selected as future Habitat homeowners, and Karen couldn't contain her happiness, beaming a generous smile as she and Sonni first saw the property lot of their new home.

Their home is being sponsored and built by CSI Construction Company with the help of their subcontractors and suppliers.

This is a *Builders Blitz*, a project that will be completed in a matter of just a few weeks, from foundation to roof and everything in between! CSI's big-hearted donation and dedication to give back to the community is a substantial help to Habitat, and ensures that more families will have a safe and affordable place to call home.

By volunteering on the construction site or donating to Pikes Peak Habitat, you are changing the lives of this family forever. To do more, contact us at 719.475.7800.

“It is truly a blessing.”
