

The 12 Days of Christmas represent the journey three wise men traveled to Bethlehem for the Epiphany; many people believe that journey represents the day the three men visited Jesus with gifts.

One of the greatest gifts anyone can receive is the gift of permanent, affordable homeownership, and knowing the safety, security, and opportunities it can bring.

A recurring gift as little as \$60 a month can purchase all the 2x4s needed to build an entire home. For the cost of what most of us spend on drive-thru coffee each month, the entire frame of a home can be built, a family of lives can be forever changed.

This holiday season think of Pikes Peak Habitat for Humanity, as we assist future homeowners across El Paso County realize their dreams of owning their own home.
